## ECHOES OF MEMORIAL DAY

### LITTLESTOWN TAKES FIRST PLACE WITH PARADE.

#### York Springs Fittingly Commemorates, While Gettysburg had The Crowd.

While Gettysburg had as an orator a General and an ex-Governor while Gettysburg had the big crowd, 4,000 by train and as many more by conveyances, yet in the matter of parade Littlestown is entitled to rank first.

Littlestown had a big crowd estimated at about 5,000, of whom 500 were from Carroll county, and it is claimed that Littlestown never had a greater day and demonstration. The parade was in charge of Hon. Charles H. Duttera and L. M. Alleman the chief marshals with a number of assistants.

The formation was as follows—Color Bearer—Civil War Veterans in decorated wagon drawn by six white horses, with Spanish-American War Veteran Escort—Flower ladies in decorated wagon drawn by two white horses—special choir in decorated wagon drawn by six black horses—silk mill wagon decorated in red, white and blue silk, made at Littlestown silk mill drawn by six bay horses—Public school children, boys wearing red, white and blue caps and the girls carrying flags—four or five bands—a number of organizations of Littlestown and near by towns. The parade proved to be a most attractive feature of the occasion.

At the cemetery Hon. C. H. Duttera was master of ceremonies and services consisted of Decoration of Graves—Music—Prayer by Rev. E. E. Blint—Singing—Oration by Rev. J. W. Menninger of Lancaster—Singing—Remarks by John D. Kiech, Esq. of Gettysburg, music and benediction. The parade re-formed and marching back to school building was there disbanded.

#### Day at York Springs.

York Springs claims the finest parade that ever marched through its streets on Memorial Day, over a quarter of a mile long and witnessed by 5,000 people. It moved off as follows:

Chief Marshall—Burgess and aides—Citizens Mounted Military Escort—twelve in number—Biglerville Band—G. A. R.—Orators in Carriages—York Springs Lodge I. O. O. F., 30 men in full regalia—Bermudian Drum Corps—Order of Independent Americans of Latimore, 20 strong—P. O. S. of A. of Heildersburg, 46 of the 53 members—Sunday School Children.

After the parade had been dispersed the assemblage gathered on large lawn of Anthony Deardorff with Rev. L. M. Gardner as Master of Ceremonies. Rev. Bierley made opening prayer. Rev. Stanley Billheimer followed with an introductory address. Then came the orator of the day, Rev. Seth Russell Downie, with theme, "Pathos and Inspiration of Memorial Day." The closing address directed specially to the veterans was by Rev. L. M. Gardner. There were songs by a choir and music by the band between the speeches.

In New Oxford rain interfered with program. The parade formed and marched to cemetery but a heavy rain scattered the people and all the services were dispensed with.

How Memorial Day was observed in other places is detailed in a number of news letters in other columns.

#### Farmers' Institutes.

The County Board of Farmers' Institute Managers, will meet at the County Commissioners' office on the second Tuesday of June, to arrange for the place where Institutes are to be held this season. All of our people who desire Institutes, ought to attend this meeting and present their claims. This Board is composed of the Local Members of the State Board of Agriculture, and one representative from each County Agricultural Society, the Pomona Grange and County Alliance. If you find that you cannot attend this meeting, address a letter with your request to Chairman of Board of Institute Managers, care of County Commissioners.

#### Trolley Race to This Place.

The race of three trolleys to this point is not a very fast one, yet it is hoped that it is faster than that of the proverbial snail.

The blue prints of the Mt. Holly and Gettysburg trolley are announced to have been completed by the engineers and that the rights of way have nearly all been secured. The Arendtsville people held an enthusiastic meeting to

give encouragement to the trolley coming their way and the Biglerville people have been quietly working so that they will not be passed by. Surveyors arrived in town on Monday and completed survey on Carlisle street and other points.

The Chambersburg and Gettysburg trolley has reached Graffenburg, work having been going on steadily for several weeks.

The Washington, LeGore and Gettysburg trolley is getting a move on. Jas. W. LeGore has visited this county and town on several recent occasions and is highly sanguine of the project. A meeting was held last week at Libertytown, Md. It was opened with a prayer and after several speeches \$10,000 was subscribed for the trolley.

If Governor Pennypacker could be persuaded to conclusively settle the question that the permanent encampment of the National Guard would be at Gettysburg, the race of trolleys to this point would begin in earnest.

#### A Run of Hard Luck.

Daniel C. Shealer of this place is having a run of hard luck, proving the old adage that misfortunes do not come singly. His stable burnt to ground, as stated last week, on May 29. On May 25 his insurance on the stable expired and he had failed to have it renewed and his loss with contents may run to \$400 or \$500.

Those who were first on ground believe the fire was of incendiary origin, as it started inside the stable in or near a horse stall. The one horse injured by fire has recovered.

The day after the fire Mr. Shealer was opening a bale of hay, when a piece of wire pierced the palm of his right hand. It was a slight wound to which at first he paid little attention, but the hand began to swell and became very painful and blood poisoning has resulted. Dr. J. R. Dickson is in charge of the case.

#### Wouldn't Pay His Fare.

A stranger in town on Sunday and much the worse from booze boarded a trolley car and when the fares were being taken up refused to pay. The car was stopped near Battlefield Hotel and conductor Guy McCarney proceeded to put the man off the car with the result that both man and conductor fell into the street. The head of the stranger struck a stone and was cut open. When Dr. J. R. Dickson arrived the man had been removed to grass plot in front of hotel and seemed like one dead. The stranger made no move until the physician touched his eye. Then he moved, struggled to his feet and wanted to know whether "a fellow couldn't get drunk if he wanted." Appearing not to be seriously hurt he was removed to lockup to sober up. A large bottle of liquor was found on the man.

#### About One Well Known Here.

John S. Bridges of Baltimore, son-in-law of the late Judge Wills and brother of Mrs. Tinges of this place has become a prominent real estate dealer of Baltimore since the fire. He sized up the situation after the fire, had faith in the greater city to rise from the ashes, and became an active dealer in the burned district. His building on South Charles Street was practically the first erected on that thoroughfare, which widened is destined to become one of the busiest places in the city. Last week Mr. Bridges sold twenty-two feet on the same street upon which there is a four story building nearing completion for about \$27,000. He also sold at the same time another lot on South Calvert street on which a big warehouse will be erected.

#### Result of Sudden Stop.

Last Thursday Mr. and Mrs. T. Culp and three-year-old child were in a spring wagon about two miles from Brashtown, when Mr. Culp jumped from wagon to open a gate and shout "whoa" to his horse. The animal came to a sudden stop and threw Mrs. Culp and child out of the wagon, and the former received a cut back of her right ear by striking stone. The child was uninjured. Dr. A. C. Rice dressed the injury.

#### Children's Day Exercises.

An Alaskan Indian girl, Miss Mary Kadashan, will speak of the work of Sunday Schools in Alaska, at the Children's Day services, which will be held in the Presbyterian church next Sunday morning at 10.33. A special program will be rendered, consisting of new and old hymns, with interesting exercises and recitations by the primary class.

This new line is of furniture as good and fine as can be made. Beautiful pieces of mahogany and quartered oak are going into these samples and they are being made in designs requiring hand carving and will undoubtedly bring the company large orders for a fine line of furniture. ## THE GETTYSBURG SCHOOLS

### PERCENTAGE OF ATTENDANCE LOWERED BY EPIDEMICS.

#### The Library of High School Growing and Has Proved of Great Value—New Case Needed.

Following is a report of the Gettysburg Public Schools for the year 1904-5. The average attendance and per cent. of attendance are a little lower than they have been in previous years owing to an epidemic of measles and mumps among the children:

The per cent. of attendance for the different schools is as follows:

	Male.	Female.	Average.
1st Primary	90	88	89
2d "	89	91	90
1st Secondary	90	90	90
2d "	92	90	91
1st Intermediate	91	89	90
2d "	88	93	90
C Grammar	92	90	91
B "	83	93	91
A "	90	93	92
High School	94	96	95
Colored "	71	77	74

Total number male pupils in attendance during the year 278.

Total number female pupils in attendance during year 283. Total 561.

Average number male pupils in attendance during year 210.

Average number female pupils in attendance during the year 220. Total 430.

The names of the pupils who have attended every day during the term with names of their teachers will be found on second page, 24 belonging to the honor roll of attendance.

Pupils who were graduated May 25, arranged in order of class standing: 1, Edna Kuhlman; 2, Rogers Musselman; 3, Helen Culp; 4, Virginia Beard; 5, Lizzie Barly; 6, Roy McMillan; 7, Mary Hake; 8, Estella Lohr; 9, Beulah Stallsmith; 10, John Sachs; 11, John Carter; 12, John Zinn; 13, Cora Tborn; 14, Naomi Rice; 15, Maude Darsey; 16, Estella Raffensperger.

During the term there were added to the High School Library 38 volumes, besides 16 volumes of Stoddard's Lectures, making a total of 48 volumes. Our library now completely fills the large case in the hall of High School building. There is a balance of \$12.50 with which to buy books. It is difficult to estimate the value of this library to our pupils. We hope to continue to add many volumes to the library from year to year and thus give our pupils an opportunity to read good literature.

It is gratifying to note the interest taken in our schools, not only by teachers and board of control, but also by others not directly associated with the daily school affairs. During the school year just closed the Gettysburg Chapter of the D. A. R. established a prize for the best original essay written upon some subject relating to the period of the American Revolution. This prize is to be continued from year to year. It gives every pupil in the High School an opportunity to compete not only for five dollars, but for an honor for which it is worth while to strive.

One of the greatest factors in the creation of interest and good work in our High School is the High School Alumni Association. This association at its last meeting voted to establish a prize of \$5 to the first honor pupil of the Senior class and \$3 to the second honor pupil.

The above named prizes, together with the prize of \$5 awarded to the pupil making the best record in spelling are incentives to careful study. We are grateful for the interest shown in our schools and we hope that, by the assistance of interested patrons, our schools may be made equal to any in our state.

Wm. I. Book, Pres.

#### Third Fire Alarm Within a Month.

A fire alarm at 11 o'clock Sunday morning disturbed church services in a number of our churches. The firemen quickly responded. The roof of the old warehouse building on Middle street, opposite court house, occupied by M. F. Wassen was on fire and is supposed to have resulted from defect in flue, as fire was all around a terra cotta chimney pipe. The second story of building held a quantity of straw and the falling sparks from roof set it on fire and it looked at first as though it would make an ugly fire. It was, however, only a minute or two until the chemical extinguishers from the hook and ladder truck were carried into the building and started, shortly afterwards water from a line of hose from plug on Sanders corner

was playing on roof and fire was out in short order, again demonstrating the remarkable proficient fire service this town has. Those who believe that fire alarms travel in groups of three can rest easy, alarm for chimney in John's house May 11, for Shealer stable May 29, and the one on Sunday makes three alarms in 24 days.

#### Races Giving Sport.

The Matinee Races on Hanover Fair Grounds for road horses of Adams and York counties are proving to be a very popular and attractive sport. A large crowd witnessed the races last Saturday afternoon. Class A race proved the most exciting. E. C. Tawney's black mare, "Myra," after taking two heats looked like a winner but next three heats went to H. W. Parr's bay gelding, "Deceiver." Edward S. It is expected to have \$290 above expenses. The Firemen gave the ladies assisting at Festival a dance Monday evening after supplies were sold.

#### Rural Delivery Boxes.

Postmaster McIlhenny a day or two ago received orders from Post Office Department, Washington, requiring him to report all rural delivery boxes which have not been approved. Patrons must erect boxes "approved by the Postmaster General" ("U. S. Mail") and if such boxes are not up it must be reported and no discretion is given local officials. When reported it may result in mail being withdrawn. No report will be made for a week or two and all rural patrons should in meantime provide themselves with regulation boxes and help delivery of mail by having secure and proper boxes.

## A MATTER OF HEALTH

## Bold Horse Stealing.

One day recently a tramp came to home of David Phillips, in Reading township and asked for something to eat and offered to work. He gave his name as E. A. Wire. Mr. Phillips put him to work in the garden. Mr. Phillips and family went to East Berlin on Saturday, May 20, the tramp declining to go along and saying he would stay until Mr. Phillips returned. About noon of Saturday he appeared at the home of Martin Grove and asked for a saddle which he did not get. About two o'clock he borrowed a saddle of Calvin Bosserman, telling him that he came from Baltimore and was taking the horse to York Springs to trade on another one and would be back before dark. He left a note on the table of Mr. Phillips, stating that he would be back the same night with a better horse. Sunday morning Mr. Phillips followed, tracing him from York Springs to Dillsburg, where he stopped Saturday night and when he left latter place was headed toward Carlisle. Phillips followed to Carlisle and secured the service of a detective and man and horse were found in Carlisle on Monday of last week. He is said to have offered to sell horse at York Springs and Dillsburg. Wire is now located in jail on High street.

## Letter to J. Edw. Reiling.

Gettysburg, Pa.

Dear Sir: Two years ago the estate of the late Congressman Scott, of Erie, Pa., painted 24 Rolling-Mill houses one coat Devco at a saving of 11 per cent for paint (lead-and-oil was after the job).

That's how the tale reads. We infer what really happened.

The buyer, as usual, went by the cost of paint; got bids. Lead-and-oil bid low and guessed the quantity low; the saving was only 11 per cent.

Nobody seems to have thought of this: the painting costs two or three times as much as the paint. How much did we save on the painting? Don't know.

The tale ends with this: We often refer inquirers to those houses, for wear of Devco.

That's a good-enough story; but nobody knows what it is. Our only difficulty is want of paint-intelligence.

Yours Truly

F. W. Devco &amp; Co.

P. S. Thos. J. Winebrenner sells our paint.

## Good Fishing.

One day last week, a fisherman who could not help catching fish because he was a Fisher—with Benjamin for a first name, and R. D. Bream, caught sixty of the finest white and black suckers with rod and line in the stream near Cashtown.

## Made Just Right.

The Weaver Piano is made just as it should be to produce a superb tone and last a life time.

## Pigeon Adopts Chicks.

C. A. Ruff of New Oxford, hearing the peeping of little chicks in his barn and investigating, discovered that a pigeon had hatched two peeps and was performing for them the services of the hen. He did not disturb them and will watch developments.

## IMPOSSIBLE IS UNAMERICAN

MOTTO OF GRADUATING HIGH SCHOOL CLASS OF 1905.

Commencement a Delightful Occasion With Attractive Features.

Brua Chapel on last Thursday evening at the High School Commencement presented a most attractive scene. In front on the stage was arranged foliage plants. On tables were vases of cut flowers and back of these the eleven young ladies in all the brightness and prettiness of their white commencement gowns and the five young men. Over the class old Glory stretched and the motto of the class "Impossible is Unamerican."

Brua Chapel was crowded, every seat taken and there was so much in the program to please and delight the audience that the almost three hours taken quickly passed.

At the close of the program Prof. W. I. Book, announced the honors and prizes, saying that at the end of the year and examinations none of the teachers in High School could tell to whom the honors of the highest and second highest average would fall as a half dozen members of the class were so close in their marks. It was only after comparing all the figures of all the teachers it was discovered that there were slight differences in favor of those to whom given, so while to Edna Kuhlman was awarded the valedictory as the pupil having the highest average and to Rogers Musselman the Salutary as pupil having second highest average, the teachers had added an Honor Roll of pupils whose average was 90 and above and on this roll besides the two named were Helen Culp, Virginia Beard, Lizzie Bayly and Roy McMillan.

As previously announced the \$5 prize given by the Daughters of the American Revolution for best essay on an historical subject was won by Rogers Musselman with first honorable mention of Virginia Beard and second honorable mention of Edna Kuhlman. The \$3 prize for best speller went to Edna Kuhlman.

A feature of the evening was the music by the Gettysburg College Orchestra. The young men have become exceedingly proficient in all that goes to make up good orchestra music, their selections are excellent and the audience again and again showed appreciation and pleasure given by hearty applause.

The graduating class acquitted themselves individually and collectively in excellent shape, demonstrating the words of Prof Book to be correct that in the whole 16 he had an exceptional class. In the "Magic Cauldron" Beulah Stallsmith pictured in imaginary rising bubbles the future of the members of the class and the pleasant hits called forth smiles and applause.

Presentation Oration by Naomi Rice was a very attractive feature and from the first gift of a small black cat in a basket to a rattle given the giver created much merriment. For the young ladies were such articles as a barrel for sermons, a mirror, a bottle of perfume, a teachers rod, a child's tea set of dishes, a book on housekeeping.

Then the giver developed the fact that the boys of the class were a quintette of Jacks as she summoned before her John Zinn, John R. Musselman, John Carter, John Sachs and John Roy McMillan and presented them respectively with a yard stick, a telescope, a high silk hat for the predicted colored minister, the first colored graduate of the town, a jack in the box and a box of bugs.

The program in detail was as follows:

Music, "Yankee Grit." (Holzman.)  
Invocation Rev. H. G. Vincent.  
Salutatory, For Value Received I Promise to Pay, Roger Musselman.  
The Fiery Cross, Cora Thorn.  
Busy Bodies, Estella Lohr.  
Ice, Its Story, Helen Culp.  
Music, "Follow the Flag," (Grabbe.)  
Our Defenders, John Zinn.  
A Storyette, Estelle Raffensperger.  
Unknown Heroes, Mary Bake.  
Money and Manhood, John Carter.

The address to graduates by Rev. M. Coover was to draw their attention to three masteries to make of themselves successful men and women, the mastery of facts, the mastery of forces and the mastery of self. The mastery of facts or knowledge must be continuous for the world advances toward new knowledge and much they have

learned may have to be put aside for new knowledge in the years to come. Knowledge was insufficient unless coupled with a mastery of forces to useful endeavor and both the former masteries depended upon the mastery of self.

Dr. T. C. Billheimer, Pres. Board of School Directors of town, presented the Diplomas to the graduates and the propitious evening in the lives of sixteen young people came to an end.

# BABY'S AWFUL ITCHING ECZEMA

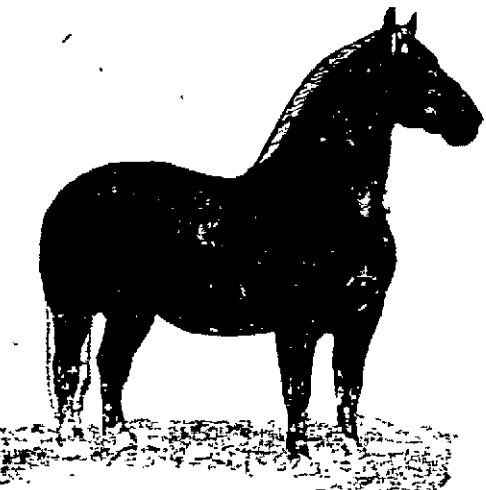

Sores All Over Face and Body— Could Not Tell What She Looked Like— Unable to Sleep— Grew Worse Under Doctors.

## CURED BY CUTICURA IN ONE MONTH

A grateful mother, in the following letter, tells of another of those marvelous cures by Cuticura: "When my baby was four months old her skin broke out with a humor. I took her to a doctor, who said it was eczema. He gave me medicine to give her, but she kept getting worse all the time. Her little face and body were so covered with sores and large scales you could not tell what she looked like. No child ever had a worse case. Her face was being eaten away, and even her finger nails fell off. Then it itched so she could not sleep, and for many weary nights we could get no rest. At last we got Cuticura Soap and Ointment, first bathing her in warm water with the Soap, and then spreading on the Ointment with soft cloths. I saw a change in a week. The sores began to heal, and she could sleep at night, and in one month she had not one sore on her face or body. Any mother having children with eczema or humors will find a friend in Cuticura Soap and Ointment. (signed) Mrs. Mary Sanders, 709 Spring St., Camden, N. J., Aug. 14, 1904."

The foregoing statement justifies the oft-repeated assertion that Cuticura Soap and Ointment afford instant relief, and permit sleep for baby and rest for tired mothers, and points to a speedy, permanent, and economical cure, when all else fails, in the most torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply skin, and scalp humors.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Foster Drug & Chem. Corp., Boston, Sole Props. Send for "How to Cure Baby Humors."

For over a third of a century Dr. Pierce's Golden Medical Discovery has sold more largely than any other blood purifier or tonic.

Bigger sales today than ever before. Is that not the true test?

Cures others who not you? Makes rich red blood. An indication of nature's method of restoring waste of tissue and impoverishment of the blood.

and nervous force is used when you take an alternative extract of herbs and roots, without the use of alcohol. It is Dr. Pierce's Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutrient the blood requires.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It thus cures scrofula, eczema, erysipelas, boils, pimples, and other eruptions that mar and tear the skin. Pure blood is essential to good health. The weak, run-down, debilitated condition which so many people experience is commonly the effect of impure blood. Dr. Pierce's Golden Medical Discovery not only cleanses the blood of impurities, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood.

No matter how powerful the intellect or the resources of intellectual power, it must be backed up by physical force. Every day the youth of man must manufacture a pint of rich, arterial blood, that is pure, stimulating to the brain, and that can rebuild the tissues that were destroyed in yesterday's work.

## A BIG TROLLEY MEETING

TO BRING TROLLEY THROUGH ARENDTSTVILLE.

Lady Breaks Through Pump Bed And Hangs to Chain Until Rescued.

Arendtsville, June 2.—The outlook for the trolley road is very bright. On Monday evening, May 22, a very enthusiastic meeting was held in the town hall, in this place, in the interest of the Mt. Holly & Gettysburg Trolley Road coming via. Arendtsville. Although the announcement of the meeting was only sent out that day, it spread rapidly and when the hour came the hall was packed with enthusiastic men who nearly all offered the right of way through their land free. From the encouragement given by those living along the line the prospects look very bright for the road to come this way, but if our citizens do not stick together and help the cause, they will lose a golden opportunity that will not soon present itself again.

Last Wednesday when Mrs. Lenard Taylor went to her well for water, the boards of the pump bed gave way under her weight and she partly fell through. She only saved herself by catching hold of the chain pump until her daughter, Mrs. Ellen Wagner, came to her assistance. The well is 20 feet deep and has six or eight feet of water in it. If she had fallen through she would have been drowned before help could have reached her.

A. Walter Bleakney, of Elderton, Armstrong County, spent a week here among old friends. He had not been here for fifteen years and says he finds many changes here. He is a wealthy retired stock dealer. He is well remembered by the older citizens here.

The Decoration Service was well attended in this place last Saturday noon, John D. Keith, Esq., of Gettysburg, was the orator, Rev. D. T. Koser and Rev. T. C. Hesson also took part in the services, the Sunday School children strewed the flowers. Dr. Leo Merriman was chief marshal, Dr. Wm. E. Wolff and H. J. Wilson aids.

Rev. John G., son of Rev. D. T. Koser, of this place, has taken a charge at Eglon, W. Va.

A. J. Weidner attended the State Board of Agriculture that met at West Chester last week.

LEG BROKEN BY FALLING TREE

Bendersville, June 2.—While Jacob Garrison, living two miles west of this place, was engaged in cutting timber a tree which he had just cut down slid from the stump striking him on the leg breaking it below the knee. Dr. Smith adjusted the fracture.

The usual large crowd turned out on Saturday last in this place to decorate the graves of the honored veterans who have passed away. The P. O. S. of A. and Citizens bands furnished the music. Hon. S. McC. Swope's oration was one of the best ever given in this place.

The Citizen's Band have new suits which make a fine appearance.

Oscar Carson and family, Mrs. Blocher, of Harrisburg, spent a few days here recently.

The Columbia Flint Company, last week, purchased of Moses M. Black several acres of land containing a large amount of flint rock which will be used at the works at Bendersville Station.

Geo. W. Pensyl in some unknown manner has lost the sight of his left eye.

John Deardorff, Edward and Danner Wampler are home with their mother from Altoona.

Calvin Beamer purchased a horse at H. S. Cashman's sale last Friday for \$190.

The P. O. S. of A. band furnished the music at a festival at Heidlersburg on Saturday last.

Isaac B. Myers is making important improvements at his home on Main street which he recently bought of W. H. Diehl.

William Webb, of Newville, spent Sunday last among friends in town.

Rev. Diehl preached a special sermon to the P. O. S. of A. and I. O. O. F. lodges on Sunday morning last in the Lutheran church.

P. N. D.

Pen-Mar Lutheran Reunion.

The members of the committee on the Lutheran Pen-Mar Reunion consisting of Rev. G. W. Enders, D. D. of York, chairman; Rev. Dr. G. W. Miller, Baltimore; Rev. Dr. T. H. Miller, of Westminster, Md.; Rev. Charles H. Trump, of Martinsburg, W. Va.; Rev. Dr. E. H. Leisenring, of Chambersburg; Rev. Geo. C. Henry of Shippensburg and W. L. Gardner, of Harrisburg met recently in Gettysburg and decided on Thursday July 27 for the annual reunion. A Baltimore male chorus is expected to furnish the music. President Roosevelt and U. S. Senator Dick of Ohio will be invited to be among speakers.

419 PUPILS IN PUBLIC SCHOOLS  
ATTEND EVERY DAY.Six Times As Many Pupils At-  
tended Every Day As Did Five  
Years Ago.

The reports from all the teachers of the county show 419 pupils in the public schools of county attended every day for school year 1905 as against 68 in 1901, 250 in 1902, 293 in 1903, and 345 in 1904. 1905 was the banner year. With about 6000 pupils in county one-fifth never missed a day and this in a year when the winter was unusually long and there were weeks of extreme cold weather. Hamiltonban township is the banner township with 42 and Littlestown the leading borough with 39. Each of the 419 pupils will receive a certificate of award for attendance from Superintendent of Schools Prof. H. Milton Roth, who started the giving of certificates in 1901. The move has been a good one, showing the schools to be well taken care of, the health of the children to have been good and children and parents interested in attendance.

## AN OLD MAN'S TRIBUTE.

An Ohio Fruit Raiser, 78 Years Old,  
Cared of a Terrible Case After Ten  
Years of Suffering.

When suffering daily torture  
From backache, rheumatic pain,  
Any ill of kidneys or bladder,  
Turn to Doan's Kidney Pills.  
A cure endorsed by thousands.  
Read an old man's tribute.

Sidney Justus, fruit dealer, of Mentor,  
Ohio, says: "I was cured by Doan's  
Kidney Pills of a severe case of kidney  
trouble of eight or ten  
years' stand-  
ing. I suffered  
the most severe  
backache and  
other pains in  
the region of  
the kidneys.  
These were es-  
pecially severe  
when stooping  
to lift any-  
thing, and often I could hardly straighten  
my back. The aching was bad in the  
daytime, but just as bad at night, and I  
was always lame in the morning. I was  
bothered with rheumatic pains and drop-  
sical swelling of the feet. The urinary  
passages were painful, and the secretions  
were discolored and so free that often  
I had to rise at night. I felt tired all  
day. Half a box served to relieve me,  
and three boxes effected a permanent  
cure."

SIDNEY JUSTUS.

"A FREE TRIAL of this great kidney  
medicine which cured Mr. Justus will  
be mailed on application to any part of  
the United States. Address Foster-Mil-  
burn Co., Buffalo, N. Y. Sold by all  
dealers; price, fifty cents per box.

# Ayer's

Why is it that Ayer's Hair Vigor does so many remarkable things? Because it is a hair food. It feeds the hair, puts new life into it. The hair cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.

"When I first used Ayer's Hair Vigor my hair was about all gray. But now it is a nice, thick, black, and as thick as I could wish."

Notwithstanding opinions were conflicting as to many points of view of the sewer question no one was found who would say that the town did not need a sewer. That fact was conceded when the matter was discussed but it was the expense, or taxes, or other question that kept many from giving the sewer the support of their votes. Now that the sewer has carried the Compiler in its duty to the public will leave nothing undone in the coming years to expose and prevent every extravagance at any time contemplated so that the pledge of the town government given when sewer question was presented to the people may be kept, namely to give the town a public sewer and provide for the payment of a bonded debt without any increase of taxation, a proposition we have always believed good economical finance can give. As a public journal we propose to leave nothing undone toward bringing this about.

## A STOLEN INVENTION.

How the Designer of the Hansom Cab Lost a Fortune.

Charles Hansom, the famous English architect, was a talented man in many respects other than in the exercise of his profession. He was dining on a certain day with a few friends when one of them taunted him with being unable to invent a vehicle which would supersede the old fashioned hacks and cabs in universal use in London. Mr. Hansom got a sheet of paper, and without any delay he sketched out his idea of a safe and convenient mode of passing through the crowded streets of the great metropolis. His friends watched him while he was at work and unanimously applauded the sketch which he had drawn. They dubbed it by the name of its inventor, and it was then and there called a "Hansom car." One of those present advised him to take out a patent for it, which he said he would do on the morrow. However, there was one dishonest man in the company, by whom he was forestalled, for on reaching his own house that evening and being, like Mr. Hansom, a clever draftsman, as all great architects are, he sketched out a car like the drawing he had seen, and early the following morning he took it to the office and got out a patent for it in his own name, thus robbing the talented inventor of all the remuneration which he deserved to reap from it. It brought an immense but ill gotten fortune to the one who had perpetrated the fraud, whereas Mr. Charles Hansom was never one penny the richer.—Donahoe's.

## JACK TAR'S GIN.

The Way Liquor Was Smuggled Aboard One of Our Warships.

While on the China station in 1886 the master at arms' mess on the United States steamer Omaha was in a drunken and demoralized condition for several weeks. Try as he might the captain could not discover where the liquor was coming from. Finally all shore liberty was stopped, but the drunkenness did not cease. On the morning of sailing while the executive officer was near the port gangway watching the taking in of stores he asked what was in a large demijohn that came over the side with boxes and packages. He was told that it was vinegar. He pulled the cork and sniffed it. It was vinegar. Then his attention was attracted by the tag marked "master at arms' mess," and, remarking that the mess must be using vinegar for bathing, as he had already seen the same demijohn brought aboard twice within that week, he ordered the officer of the deck to inspect it carefully and taste it. He did: it was vinegar. That officer, however, noticed that the jug had an unusually long neck. He poured out a small quantity of vinegar and discovered an extra cork in the bottom of the neck. Below that were three gallons of gin. The vinegar between the corks had served to deceive the inspecting officer at the gangway for a month.—Chicago News.

## Men and Heads.

"What kind of head do you like on a man?" was asked of the president of a corporation employing several thousand hands. He replied: "It depends altogether on what I want the head to do. Each department of our business requires a different shape of head. We don't look for veneration, benevolence, generosity, sublimity, conscientiousness, acquisitiveness or idealism. Take them all in all, I think I'd rather have around me men of combativeness, aggressiveness, hope, spirit, constructiveness. I try to pick out such. I should like every man in my employ to have at least two-thirds of his head in front of his ears. Men with big back heads are overweighted with intellect; too slow to keep up with the age."—New York Press.

## Belgium as a Lace Center.

Belgium has long been an important center of the lace industry. The art of making lace spread through Flanders from France and Italy in the middle centuries owing to the splendid qualities of Belgian flax, and it was there that the wonderful duchesse lace was originated. Much of the so called Spanish lace—black, with its large roses and trailing design—was also made in Flanders, and for the last hundred years the cities of Bruges, Ghent and Ypres have put on the market the three best grades of the modern valenciennes lace, each city having a distinct variation in design due to the differences in workmanship gradually introduced in the course of years in the three localities.

Mr. Snubbs—You know you're only talking nonsense. What do you want a couple of new gowns for? Mrs. Snubbs—Why, Mrs. Payne has got a dozen gowns, all of them much handsomer than the two or three that I've got. Mr. Snubbs—Yes, I know. But a homely woman like that needs rich attire in order to attract attention from her face. You don't—Liverpool Mercury.

## Indignation.

"Say, boss," began the beggar, "I'm outer work an'—"  
"See here," interrupted Goodart. "I gave you 50 cents last week."  
"Well, yer've earned more since, ain't yer?"—Exchange.

## Stealing a Bride

[Original.]

In colonial times there was a curious custom called bride stealing. Persons who had not been invited to the wedding would watch for a chance after the ceremony had been performed to kidnap the bride. Placing her on a horse behind one of their party, they would gallop to a neighboring tavern where they had ordered supper. If they reached the tavern before the bride had been rescued the night was spent there in feasting and dancing, and the bridegroom was expected to foot the bills.

Mary and Helen Harrington, daughters of an old colonial justice of the peace, were very attractive girls. Mary was engaged to an officer in the British army, and her parents, being Tories, were well satisfied with the match, but Helen's fiancé, being outspoken in condemnation of the taxes the king levied on the colonies, was not acceptable to her father, who declared that she should never marry a man tainted with a spirit of rebellion.

On the other hand, preparations for the marriage of Captain Hinchelwood and Mary Harrington were being made with great satisfaction to all, though Truxell and Helen could not but be cast down at the contrast between their own condition and that of the happy pair. In vain Truxell endeavored to gain an interview with Helen, hoping to persuade her to elope with him. But she was so closely watched that communication was impossible.

Preparations for Mary's wedding having been made and the wedding day arrived, guests from all the country roundabout were assembled at Harrington Hall to take part in the festivities. Captain Hinchelwood wore his scarlet uniform, Mary a white satin gown beautifully trimmed with lace. Her sister was her only bridesmaid. There was a plentiful sprinkling of redcoats from the groom's regiment, stationed at Boston, who held their heads very high among the plainer young men who were soon to meet them at Concord, Lexington and Bunker Hill. The ceremony had taken place, the bride and groom were receiving congratulations, and the negro cooks in the kitchen were bringing in the supper. Suddenly every candle was extinguished, and there was a commotion, amid which voices cried:

"Bride stealers!"

"The bride has been stolen!"

"Mount!"

"They're galloping away!"

There was a clattering of horses' hoofs, growing fainter in the distance. Under the sheds horses and vehicles which had brought the guests were standing, and a number of the men, headed by the bride's father and her husband, mounted and dashed away after the kidnappers. A full moon illuminated the landscape, and at every straight stretch of road the pursuing party could see those who were fleeing before them flashing their bayonets. At one point the pursuers came to branches of trees piled in the road to prevent their progress. That the kidnappers were not delayed was because, having prepared the obstructions themselves, when they came to them they took a bypath around them. Dismounting, the pursuers soon cleared the road and were off again. Then they approached a covered bridge which had been packed with straw and which as soon as the kidnappers had passed through it they had set afire. Indeed, the pursuers saw the sparks struck from the flint for the purpose. By the time they reached the bridge it was aflame, and they must go to a ford a good mile around. This decided the race. When the pursuers reached a tavern where the lady had been taken and Mr. Harrington went on to the porch his daughter came out to meet him. But instead of throwing herself into his arms she knelt at his feet. Then for the first time her father noticed that a man who followed her was young Truxell.

"What do you mean by this?" exclaimed the old man angrily.

"Father," said the kneeling girl, "forgive me. I am married."

"Of course you're married and, thank heaven, to a loyal subject of the king. What! Helen! Do you mean?"

"It means, Mr. Harrington," said Truxell, "that the bride is at home. This is her sister, whom that clergyman who is standing within has just united in wedlock to me. Our wedding supper is ready. Send for the guests at the hall, and we will celebrate a double wedding here."

Helen led her father to a room where they were alone and, winding her arms about him, besought him to forgive her and make the occasion a merry instead of a mournful one. One circumstance was of great assistance to her. In the settlement pertaining to Mary's marriage Mr. Harrington had been obliged to use £20 worth of stamps that had been rendered essential under the stamp act—an act which finally made a rebel out of the old Tory. At any rate, he forgave the young couple, and all rode back to the hall, meeting messengers to say that the bride was safe and it was the bridesmaid who had been stolen. On reaching the hall they ate one supper there, then went to the tavern, where they ate another.

The marriage that Mr. Harrington expected would be a blessing to him turned out quite the reverse. Mrs. Hinchelwood went to England with her husband, and her father never saw her again. Truxell later became an officer in the Continental army and was much admired and beloved by his comrades. After the war, when his father-in-law was very old, Truxell took charge of his affairs, and under his management they greatly prospered. Mrs. Truxell eventually succeeded to her father's estate, and her descendants have enjoyed it ever since.

## ART OF GOLD BEATING

ONE OF THE OLDEST HANDICRAFTS IN THE WORLD.

The Way a Little Square of the Yellow Metal Is Expanded Into a Large and Almost Transparent Leaf by the Artisan's Hammer.

The art of the gold beater is one of the oldest handicrafts in the world and among those which have changed least. Much of the decoration of Solomon's temple is believed to have been covered with gold leaf, hammered to the requisite thinness by hand, as it is today.

The gold beater receives his material not in the form of the sixty penny-weight ingot in which it is cast, but in the form of a ribbon about an inch wide and twenty-four feet long.

This ribbon is first cut into 200 squares and placed in the "cutch," which is a pile of square pieces of a peculiar paper, part animal and part vegetable in composition, the preparation of which is a secret. The best cutches are made in London. A square of gold is placed between each two leaves and the whole mass is ready for the first beating.

This is done with an iron hammer weighing from twelve to seventeen pounds, while the cutch rests upon a granite block which is supported by a heavy wooden post.

Under the heavy, measured blows of the hammer the sheets of gold begin to stretch or expand until in half or three-quarters of an hour they have reached the edges of the cutch. They are then removed and with a thin strip of bamboo are cut into quarters, so that the 200 pieces become 800. Next comes the "shoder," a collection of 800 pieces of skin, four inches square, made from the intestines of cattle. As in the cutch, each piece of gold is placed between two leaves of skin, and bands of parchment or vellum are slipped over the whole pile to keep it together.

Another beating, this time with a hammer weighing from eight to ten pounds, now follows. This takes about an hour, during which the sheets of gold are all the time expanding.

The last stage is the "mold," which, like the cutch and the shoder, is composed of alternate leaves of gold and skin, but the mold is about five inches square and made up of gold beater's skin. The preparation of this is a jealously guarded trade secret.

The skin, like that in the shoder, is made from the intestines of the ox. It is translucent and not unlike rawhide in color. Although it will stand continuous beating without break, it will tear like a sheet of paper. The making of a single mold requires the intestines of 500 oxen. Between each two beatings the skin is rubbed with bakers' and pulverized gypsum.

A mold contains 1,000 sheets. After the second beating the workman takes from the shoder a single leaf of gold at a time, handling it with bamboo pliers and, when necessary, smoothing it with a rabbit's foot. With the strip of bamboo he cuts each sheet into quarters again, so that the original 200 have now become 2,200. One shoder, therefore, contains more than enough gold to fill three molds.

The final beating in the mold is done with a seven pound hammer and requires from three to four hours. By this time the gold leaf should have expanded again to the edge of the skins and should be of the requisite thinness, which is determined by holding it up to the light. If it transmits green rays it is done and will measure about one two-hundred-and-eighty-thousandth of an inch in thickness.

The hammers used in beating gold are slightly convex on the face. The art of the workman consists in so striking that the gold will always be thinnest in the center. He must pound with evenness all over the square in order that the sheets of gold may expand without losing their form, but at the same time he must keep the thickest part near the edges, so that when the sheets are finally trimmed to size the thicker portions may fall in the waste, to be recast. No machinery has ever been devised which will do this successfully.

The tools of the craft are interesting and peculiar. The rabbit's foot is exceedingly soft and just oily enough to prevent the gold from sticking, and the bamboo pliers and cutting ships are the only things with which it is possible to do this delicate work. The gold does not adhere to the fibers of the reed as it does to steel.

The gold beater performs all his work standing. The use of the heavy hammers in such continuous pounding would, one would think, impose an almost intolerable strain upon the hands and arms. The men say, however, that their arms never ache. The only place where "it catches them" is in the bend of the knee.

The lack of strain upon the arms is accounted for by the fact that the hammer rebounds. It is an astonishing but by no means a rare thing to see a gold beater change hands while the hammer is in the air and without losing a stroke.—Edward Williston Trentz in Youth's Companion.

## Hair Color.

In the case of horses where the skin has been abraded by the harness if the galled region is left to itself the hair will grow in, but be colorless, while if oil is applied freely to the abrasion hair of a dark or normal color will be produced, thus indicating that the color is ordinarily due to the secretions of the skin sinking down as a sediment to the base of the hair follicle, where it is absorbed by the shaft of the hair.

## A FUNNY FREAK OF LIGHTNING CAUSED A CIRCUS ACT

A Colt was Knocked Over Fence, Three Panels of Which Fell Down, But Colt was Uninjured.

**White Hall, June 2nd.**—During shower Sunday, lightning struck among some colts in a lot on farm of Poor Director Geo. A. Weikert on the Littlestown road. Wm. K. Weikert who has stocked the farm and who was standing on the porch less than 100 feet from the lot informs me that when the bolt struck he saw one of the colts, which was standing close to the fence, struck clear over the fence into the public road, knocking down three panels of post fence. Mr. Weikert says he is unable to say whether the colt or the bolt knocked down the fence. Strange he was unable to locate where the bolt struck and as the colt was not killed it is reasonable to conclude that the colt was not struck. The farm buildings are within 100 feet of where the colts were standing.

Amos M. Dutera has built a monster wagon shed with corn cribs attached, on the farm of the late James C. Dutera, about one mile from this village, Jacob S. Sheely has the contract to paint the shed and also the five large barn on said farm.

We are having very dry weather and if we do not have a good soaking rain soon, the hay crop will be small. In fact the ground is too dry and hard for all growing plants. I notice where the fields are set exclusively in timothy, that the grass is dying for want of moisture.

The dry weather will also cut the wheat crop short of what was expected. Some farmers report corn coming up good, others complain of having a poor stand and plants hung and yellow. The weather has been too cold for corn, good warm sunshine will give the right color. Corn wants about 89 degrees heat to thrive well. Farmers are not quite done planting owing to want of moisture and requiring much more work to prepare for planting.

On Sunday morning about 9 o'clock a thunder shower passed south of us and rain fell copiously for a short time about one mile south and south east of this place.

John T. Hook, wife and son George were visiting among relatives and friends in and around Westminster during the last week.

At least one candidate for nomination for one of the county offices to be filled next November was circulating among the voters of this neighborhood last week. With this exception the political pot has not been fired up yet, country people are having too busy a time to think of politics, or engage in any manner in the same, for several months to come.

Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by J. H. Huber.

**DEAFNESS CANNOT BE CURED** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

**RHEUMATISM CURED IN 24 HOURS.**—T. J. Blackmore, of Hall's & Blackmore, Pittsburg, Pa., says: "A short time since I procured a bottle of Mytic Cure. It got me out of the house in 24 hours. I took to my bed with Rheumatism nine months ago and the Mytic Cure is the only medicine that did me any good. I had five of the best physicians in the city, but I received very little relief from them. I know the Mytic Cure to be what it is represented and take pleasure in recommending it to other poor sufferers." Sold by Peoples Drug Store.

**D. T. TO-DAY.**—The time-worn in junction, "Never put off 'til to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day." That is the terse advice we want to give you about that backing cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over 35 years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.
